Experience

Freelancer UX Designer

May 2024- present

- I am specifically working on integrating a "Due Date and Reminder for Tasks" feature into the existing To-Do list application. This feature aims to provide users with a seamless way to set due dates and receive timely reminders for their tasks, thereby enhancing their organizational capabilities and overall user experience.

User Experience Designer Intern at Tehranpars hospital

June 2022 - Sep 2022

- Working as an UX Researcher on the website. I designed, developed and created prototypes, wireframes, IA, Site map, User needs, User side website and all essential things related to UI/UX.
